

ALISHEROV SAIDABBOS

JUNIOR SOFTWARE ENGINEER | PHONE: +998 (99) 635-96-29

OBJECTIVE

- To leverage my skills as a software engineer to develop efficient and scalable software solutions, collaborate with cross-functional teams, and contribute to the company's technological advancement.

SKILLS

- Soft languages: Java, JavaScript
- Web framework: React, Spring, Spring-Boot
- Version-Control: Git, Github
- Testing: Unit testing
- Algorithms and Data structures

WORK EXPERIENCE

JUNIOR FULL-STACK DEVELOPER • EASY RELAY • 12.04.2025 – 28.08.2025

I learned Javascript, Typescript and NestJs by experience from senior developer. I had experience on building dashboard and projects for logistic companies to support for data updaters.

EDUCATION

• Bachelor in Software Engineering Faculty **Tashkent University of the Information Technology**, September 2023 – Present.

"I'm trying my best to learn how to produce clean codes and solid algorithms. My main goal is to become a good software engineer." Graduation of Java.

• Graduation of Java Backend **PDP Academy**, Tashkent, Shayxontohur June 2024 – May 2025

"I have gained a lot of knowledge here. Now I want to put everything I have learned into practice and consolidate my knowledge."

COMMUNITY AND LEADERSHIP

Tutor in Mathematics and Physics at Aziz&Abror LC.

- Provided individual lessons to high school and university students, helping them improve academic performance.
- Designed lesson plans and adapted teaching methods to students' levels and learning style
